INTRODUCTION

Montgomery is a thriving community with a rich history, excellent schools, diverse recreation opportunities and a collective commitment to preserving open land and protecting natural resources. The community has successfully merged rural and suburban lifestyles in a cosmopolitan region.

Located in the southern portion of Somerset County – six miles from Princeton University and roughly half way between New York City and Philadelphia – the Township is an historic 32 square mile community with an agricultural heritage. It lies in the Millstone River Valley west of the river and east of the Sourland Mountains. There are several hamlets within the Township: Blawenburg, Harlingen, Belle Mead, Skillman, Dutchtown and Zion.

Montgomery has a rich and varied history. Original settlers, mainly farmers, included those of Dutch, Flemish and Huguenot origins among others. Montgomery played a prominent role in the Revolutionary War, and indeed may be named after Richard Montgomery, a brigadier general who served with Benedict Arnold on the expedition of 1775 against Canada.

Until the mid-1900's, the Township retained its original rural origins, with very little change. At mid-century the Montgomery household population was about 2,350 people. The 1950's saw the start of new housing construction as well as the beginnings of some industry. By the 1970 Census the population was 5,103. Per the 2000 Census, the population was 17,481. According to the 2015 estimate of the U.S. Census Bureau, the population is 22,746.

Unlike the past, where farming was the dominant occupation, present day Montgomery is home to a variety of businesses and occupations but has retained its rural atmosphere. Montgomery continues to combine a unique convenience of location with the lifestyle features sought by residents and businesses.

Homeowners need to be aware that permits are required for small projects such as finished basements, raised patios, decks and tool sheds. Not having a permit creates problems, especially when the property is sold and a search reveals that work was done and no permit was obtained.

ENGINEERING & GIS

email: engineering@twp.montgomery.nj.us

The Department of Engineering is responsible for overseeing all township capital improvement projects, analyzing proposed designs, preparing Township mapping information, ensuring property owner/developer compliance with planning/zoning board requirements and applicable ordinances, and reviewing building permits.

Capital Improvement Projects	Engineering prepares contract documents for overlays and reconstruction of selected roads each year. New roads and new lots have been turning up monthly for several years now. The total length of municipal roads has more than doubled over the last decade. We also contract for drainage improvement, recreation, pathway and other capital projects. All of our projects include the required environmental permits.
Design Analysis	Engineering compares, quantifies and recommends design alternatives, feasibility, cost, timing and impacts for the Township Committee and other municipal departments and many of our volunteer boards and commissions.
Compliance	Engineering assures that the approvals and conditions of the Planning/Zoning Boards are followed, that the proper materials and construction methods are used, that traffic safety measures are in place, that testing and record drawings are provided, and that our general ordinances are honored. Bonds assuring developments can only be released or reduced if Engineering requirements are satisfied. New development roads remain private until Engineering recommends their acceptance by the Township.
Permit Review	We issue permits for road opening, soil disturbance, soil import/export, and residential driveways. We are generally interested in all things outside your house. Wondering if you need a permit? Call us. We prefer answering questions beforehand rather than explaining after-the-fact how a matter could have been simplified.
Interactive Mapping	The GIS or Geospatial Information Technology Section of the Engineering Department updates and maintains the tax maps and all other township map information and geographic databases. Examples of this information include zoning, open space, easements, road right-of-ways, sanitary sewer, storm drainage, and road signs. Interactive map applications are also developed and maintained for the use of township staff and the general public. These map applications are available on the interactive maps section of the township website.
Flood Hazard Area Searches	Engineering will conduct a search and provide a diagram and certification of any designated flood hazard areas on a property.

VOLUNTEER BOARDS & COMMITTEES

Montgomery Township relies heavily on the resources of its residents to fill positions on its volunteer boards and committees. The Board of Health, Economic Development Commission, Environmental Commission, Open Space Committee, Planning Board, Recreation Committee, Shade Tree Committee, and Zoning Board of Adjustment are just a few examples.

You can learn more about the work of municipal boards and committees on the township’s web site: www.twp.montgomery.nj.us (click on Boards and Commissions). The monthly regular meetings and holiday calendar is posted there under “[Elected Officials](#)” section of the website.

Montgomery residents who would like to volunteer to serve on a municipal board, commission or committee can fill out the “Municipal Volunteer Form” under ‘forms’ on the township website and email to: clerk@twp.montgomery.nj.us or send a letter of interest with their resume to the Township Clerk’s Office, 2261 Van Horne Road, Belle Mead, NJ 08502.

Although it is impossible to appoint every interested resident to a committee, resumes and letters are kept on file in the event that seats open up during the course of the year. In addition, there may be special short-term volunteer project opportunities available. For further info, call the Township Clerk’s Office at 908-359-8211.
