- 4-6. Deputy Mayor Trzaska thanked Doug for his many years of service to the Township.
5. **PUBLIC COMMENT**
- 5-1. Eric Weitze, Viburnum Drive, thanked the Township for the great job they did in clearing the snow from the recent snow storm.

Mr. Weitze suggested that the Township put a notice in the newsletter that people should obtain some poles to delineate where the curbs are on the streets on their properties, so the plow drivers don't run over and damage equipment and curbs.

Mr. Weitze spoke about Dutchtown-Zion Road and his meeting with the Environmental Commission. He reiterated that the runoff from Long Hill Road onto the unpaved section of the road was polluting the stream and the road really needed to be fixed.

Deputy Mayor Trzaska reported that he had spoken to a couple of people from Hillsborough Township and he did not get a good feeling about their interest in this project. He stated that he would reach out to them again in the near future.

6. RENOVATION OF MUNICIPAL BUILDING - PRESENTATION

Thomas S. Perrino and Scott Malin of Spiezle Architectural Group, presented their proposed plans for the Municipal Building renovation.

Mr. Perrino gave a brief background of their company. He stated that they had planned and designed Administration and Police facilities throughout New Jersey and Pennsylvania. He said that they took their inspiration from the farmland in town and nature. He presented their initial concepts, going from where Mr. Rothe had started. This is in no way the final concept plan.

Deputy Mayor Trzaska asked if they could expand on their Police facilities concept and their experience with the fact that there are a lot of utilities inside the walls of the current Municipal Building.

Mr. Malin spoke about their work with the redesign, renovation and construction of Police facilities. They knew that it was very critical that facilities be designed properly for the safety aspect and how people come in and out of the facility. The utility portion of the project has already been looked at by their engineers and they want to address that in a way that makes the phasing of the project make sense and address all of the mechanical constraints. The more finalized plans and ideas would be forthcoming as the project moves ahead. He explained the proposed plans for the first floor Police facilities. They spoke of the other mechanical considerations such as: web-based HVAC controls; new additions - not on existing chiller, possibly boilers if expanded or gas-fired based on phasing/sequencing; variable refrigerant flow (VRF) systems with DOAS; CO2 sensors and modulation of outside air; incorporate dehumidification; holding cells, armory and locker rooms - separate systems; phasing may be driven by coverage and replacement.

Mayor Graham asked if Spiezle provided full services such as design/build contract and manage the project all the way through or are they just providing architectural and engineering services. Mr. Perrino explained that they provided architectural and interior design and furniture procurement. They also provide all the engineering. They will put the project out to bid with the Township. They have construction and administration services that are inherent with their contract.

7. ORDINANCE #16-1509 - Sidewalk-Snow Removal - Public Hearing

A. Mayor Graham read the title of the ordinance as follows:

AN ORDINANCE AMENDING AND SUPPLEMENTING CHAPTER XI  
OF THE CODE OF THE TOWNSHIP OF MONTGOMERY (1984) TO  
ESTABLISH REQUIREMENTS FOR REMOVAL OF SNOW AND ICE FROM  
SIDEWALKS

B-1. Mayor Graham opened the hearing to the public.

B-2. Anna Mancilla, Sycamore Lane, requested that that the Township Committee distinguish between single family residents and homeowner association establishments. She felt it was not financially fair for single family residents to be expected to clear their sidewalks.

Mayor Graham explained that there were safety issues that were considered when this ordinance was being looked at, such as children walking to the school bus stop and people walking on the sidewalks rather than the in the street. There were also legal reasons for the consideration of the ordinance. She stated that in her understanding it is the most lenient ordinance in the State because it allows up to 48 hours to clear the snow.

Attorney Hadinger explained that the State statute under which these ordinances are modeled indicates that the plowing or snow shoveling can be required within a period of twelve (12) hours after a snow fall. This Governing Body, in recognition of people's responsibilities and other burdens, has decided to make it 48 hours.

Administrator Nieman stated that he has worked for the Township for 17 years, and when he came here there was not a lot of demand for sidewalks. However, that is changing now. He explained that he gets many calls to repair existing sidewalks and to install sidewalks in some parts of town. He stated that Montgomery is one of the few communities in the State of New Jersey that has never addressed this issue.

B-3. Ken Knieser, Oak Ridge Drive, spoke about how the plows push the snow from the road onto the sidewalks and corners. He would like to see something done about that. Rather than making the first grievance subject to a fine, he suggested making it a written warning.

B-4. The following people spoke in opposition of the ordinance:

Robert Kress, Meadow Run Drive; Wendy Redelico, Hoagland Drive (via letter);  
Charlotte Oskin, Pheasant Run Drive; Jan Narayan, Meadow Run Drive; Charles  
DiDomenico, Meadow Run Drive.

B-5. The following people spoke in favor of the ordinance:

Jenny Hill, Kings Crossing; Eric Weitze, Viburnum Drive.

B-6. Deputy Mayor Trzaska moved that the public hearing be closed. The motion was seconded by Committeeman Conforti and carried unanimously.

10. **TRANSCO UPDATE**

Attorney Hadinger explained that the public hearing on the pipeline company's request to modify its wetlands and flood permits is scheduled for February 11 at 7:00 p.m. at the Montgomery Upper Middle School. The Township has engaged James Cosgrove of Kleinfelder Group, Inc. to review the situation and he will be making recommendations to the Township, such that the Township's interests are protected in the event that the New Jersey Department of Environmental Protection decides to grant the permit. The Township has concerns about the invasive species and proper soil compaction. This is so the Township can weigh in at the public hearing and make it clear to NJDEP that, if NJDEP decides to approve the modification, the approval needs to address these issues. She stated that there is a 15 day period after the hearing in which the Township can submit written comments to NJDEP for further consideration.

20. UPDATE ON RECENT STORM AND SNOW REMOVAL

Administrator Nieman updated the Governing Body on the recent snow storm and the snow removal. The crews worked until 9:00 p.m. on Sunday with the commitment that they would get the roads passable, which meant one lane. It then required the Public Works employees to work 12 hour days the subsequent week to widen the roads to get them to two travel lanes. All of the smaller plow equipment was rendered ineffectual due to the amount of snow that fell in a short amount of time. The cost for this storm alone (labor, materials, private contractors and feeding the Township's workers) was over \$200,000.00.
