

Give Today's Youth the Gift of Toastmasters!

Do you want to see your Child as a Leader?

In today's world, kids are often more comfortable communicating electronically than speaking face to face. From personal crises to the academic rigors of school, kids are constantly confronted by difficult situations. Toastmasters Gavel Club will give your child the skills and confidence needed to effectively express oneself in any situation. It aims to build effective listening, expression, and communication skills that will help guide them through their teenage years and beyond.
